Two Sum — Guided Practice

Solve step-by-step. Get a calibrated hint instead of the full solution.

INTUITION FIRST · 12 min est.

Guided practice · Arrays & Hashing

Problem

Given an array of integers and a target, return the indices of two numbers that add up to the target.

Guided checklist

- [ ] Understand input + output
- [ ] Choose a pattern
- [ ] Write a starter skeleton
- [ ] Run a small example

Plain analogy

Think of a coat-check: remember what you have seen so you can find the matching piece fast.

Last session · auto-resumed

You practiced complement lookup yesterday.

Editor

```
function twoSum(nums, target) {
  // starter skeleton

}
```

No full solution shown. Run tests to get a plain-language explanation.
